

## 2018 Annual Report

To the People of Kankakee County,

We at the Kankakee County Health Department are pleased to present this report which summarizes our services provided during the past year, as well as a summary of the occurrence of specific reportable infectious diseases. As the Administrator for the Kankakee County Health Department, I am honored to be able to continue to work with the Board of Health, the great staff at the Health Department, and the community to promote public health in Kankakee County.

The Health Department continues to utilize many grant funds from the Illinois Department of Public Health and the Department of Human Services to meet the needs of our communities. In 2018, the Department continued its work with the Opioid Overdose and Prevention Grant to host forums and expand its training and outreach activities to help continue the work to reduce opioid overdose deaths. The Department also added the Adolescent Health Grant. The purpose of the grant is to empower adolescents to adopt healthy behaviors by increasing the percentage of adolescents who receive well care visits and ensure that health care is provided in clinics that meet the needs of the adolescents.

In the year ahead, the Kankakee County Health Department will unveil a new updated website and a new logo for the Department. During 2018, we updated mission and vision statement to better reflect how we hope to serve our community as we move into the future. We hope the public finds the website easier to navigate and full of information and resources to better answer your questions about our programs and how we can best serve your needs. We will continue to assess the needs of our community and those we serve and work in collaboration with other partners to meet those needs. Through combined efforts we can realize our public health goal of a healthier community.

The Board of Health and the Kankakee County Health Department staff are proud to be able to serve you and work together to achieve our mission and values.

John Bevis, B.S., M.P.H  
Public Health Administrator
